

The Florida Department of Health in Polk County is grateful for the partnership that exists between our organization and Keiser University. On several occasions our team has been able to provide an orientation to both public health and maternal health to the students in their nursing program. Keiser has also proved to be a valuable partner in our efforts to ensure the health of Polk County residents through the Polk County Immunization Coalition. This year, Keiser hosted the PCIC's annual Immunization Workshop for area health professionals. We appreciate Keiser University and their efforts to help make Polk a healthier place to live, work and play.

Thanks,
Tammy
