Re: Keiser University

Date: 02/17/21

We have had a relationship with Keiser for COTA and PTA program for many years. Keiser has positively affected our community as we have we have hired their graduates, both COTA and PTA. Our clinic is an internship site which is a wonderful collaboration with Keiser. Therapy patients, our clinic and Keiser students all benefit which positively impacts Miami.

The relationship with Keiser University has benefited our business as patients receive amazing Therapy from the wonderful students at Keiser. I feel that Keiser University treats its students with the upmost respect and allows them every opportunity to progress on their road to success. Keiser graduated have directly assisted our physical therapy clinic during the pandemic. Progressive Therapy Center has been a part of the community for twenty years and counting. Progressive Therapy Center currently has two office locations, one in Pinecrest as well as one in Doral.

Keiser students have always maintained the highest levels of professionalism during their time at Progressive Therapy Center. They practiced good organizational skills as well as keeping their productivity together. I am always glad to hear word of a Keiser student coming to Progressive Therapy Center to intern, and I would hire another Keiser student/ graduate in the future.

Sincerely,

Greg Welch
President
Progressive Therapy Center
