To whom it may concern:

As a member of the Florida House of Representatives and as an entrepreneur and business owner in our community, it continues to be a great honor to serve on the Keiser University Advisory Board. In my three years as board member, I have witnessed firsthand how Keiser University's proactive and meaningful support has impacted our community in a myriad of positive ways. Their distinct focus on graduating highly skilled medical professionals is truly an immeasurably valuable asset.

Specifically, I have had the pleasure of working with Dr. Curran on the Oasis STEM Advisory Board. She has brought a wealth of experience to the board. Since then, Oasis Charter schools have drawn up plans and received funding for high tech STEM labs for their students. Dr. Curran has also been a tremendous help to me on exploring new concepts for state cybersecurity policy.

Sincerely,
