---

To whom it may concern:

South Florida Diagnostic Imaging was founded in 2002. Our facility is an outpatient center that provides radiology imaging to our community. Our team includes Board Certified Radiologists and radiologic technologists registered in radiography, mammography, computed tomography, magnetic resonance imaging, sonography, bone densitometry, and nuclear medicine.

Keiser University is important to our community and our organization. We have had a professional relationship with Keiser University for over 15 years. During this time, we have had the opportunity to work alongside their students while training them for the radiologic technology profession. This has made an impact to our organization. For several years, Keiser University has helped meet the demands for radiologic technology positions by providing qualified professionals. We have found that Keiser graduates are knowledgeable, dependable, and demonstrate the professional qualities needed at our facility.

Our organization has also been participating in advisory board meetings for over a decade. This is beneficial because it has provided our organization the opportunity to offer input on community and professional needs. We look forward to continuing our relationship with Keiser University.

Sincerely,

Aileen Romero RT(R)(M)(CT)

Director of Imaging

South Florida Diagnostic Imaging
