Jesus Rivera, Ph.D.  
Program Director for Psychology  
Keiser University Miami Campus

Dear Dr. Rivera:

Please accept this letter in support for Keiser University. We have had the privilege of having students from the Psychology Program from Keiser University doing rotations in our facility. I am also the Executive Director of the Neurobehavioral Institute of Miami, where your students have also rotated. We have found the students from the Psychology Program of Keiser University to be very knowledgeable and very professional in their endeavors.

The students from the Psychology Program of Keiser University that have rotated through our various services and programs have demonstrated a significant amount of empathy and dedication to the care of the patients assigned to them. Another distinct asset of the students of the Psychology Program of Keiser University that have rotated through our facility and services is their high level of cultural sensitivity and willingness to work with a variety of patients of different ethnic and linguistic backgrounds.

We continue to look forward to having students from the Psychology Program of Keiser University as practicum clinicians and would be very much willing to hire them at the completion of their studies. I am also proud of having served as a member of the Psychology Program for the past two years. Please feel free to contact me if further information is required about the performance of students from the Psychology Program of Keiser University. Please receive warmest regards.

Sincerely,

A handwritten signature in black ink, appearing to read "Jorge A. Herrera", with a stylized flourish at the end.

Jorge A. Herrera, M.D., Ph.D.  
Director Department of Neuropsychology  
Professor of Psychiatry and Behavioral Health  
Herbert Wertheim College of Medicine  
Florida International University
