

To Whom It May Concern,

March 22, 2022

My name is Angel Moncada President of YESHUA GROUP an Information Technology Company based out of Port St Lucie for the past 7 years. We focus on providing the same level of service an internal IT Department would to small to Medium sized organization. I am a member of the Keiser University Advisory Board because I enjoy helping others succeed and provide our expertise on up-to-date trends and technology advancements. Keiser University is important to our organization and community for numerous reasons, the main one being that Keiser impacts the lives of individuals and families by enabling them through higher education to pursue and find better job opportunities and careers. Furthermore, the impact Keiser University has had on our organization is supply us with well-rounded interns for multiple projects where they can both gain experience and see the real world of IT. We have used multiple students to intern with us on some very important project, one that stands out was a project to deploy 1000+/- computers system and peripherals for one of our clients within a 10-day period, which is extremely fast compared to any standards. In the past 5+ years of serving in the IT Advisory Board I have had a really good experience meeting with the IT Department Professors, helping them and giving our feedback and input about current industry standards and developments.

I look forward to our continued partnership with the IT Advisory Board and learning from each experience as well.

Angel Moncada
