## EMILIANI SALON + SPA

To Whom It May Concern,

Keiser University is essential to our community as they continue to teach and nurture our future leaders, touching lives along the way. Not only does Keiser University provide top-notch education, but they are also continuously involved in local charities and fundraising events.

As a spa owner with multiple locations in the Tampa Bay Area, I have had many college students walk through my doors. Upon meeting those attending Keiser University, I witnessed the high caliber professional nature of their students. As I continue to expand my company, I look forward to hiring KU graduates, and I urge your company to do the same.

Best regards,

Nicole Emiliani
