

To Whom It May Concern,

I am a member of the Keiser University Advisory Board - College of Business for the last 4 years and have also served as a frequent guest lecturer for the College on international business topics. It has always been a good partnership between Keiser and Enterprise Florida to promote the University and the State of Florida to be an ideal and business-friendly destination to obtain quality higher education and to grow businesses in. We are proud to have Keiser's Vice Chancellor Belinda Keiser serving on our Board of Directors for many years. The Vice Chancellor has continued to contribute significantly to Florida and EFI with her expertise in the higher education and its importance in strengthening Florida economy.

Enterprise Florida is the official economic development organization for the state of Florida. EFI has six regional offices in Florida and 21 official representative offices in 19 countries throughout the world. These offices can serve as an important bridge to provide a great network of connection to the world for Keiser faculties and students and to assist them to gain business/market knowledge of the region. I have always appreciated the opportunities to interact with Keiser students and share with them the knowledge and experience of the real business world to prepare them for the future in the fast changing global economy.

I truly value the appointment to serve on the Advisory Board of the College and commit to do my best to support Keiser University and to carry out my assigned duties.

Regards,
John
