To Whom It May Concern,

Keiser University is important to our community for supporting local organizations in need. Recently the Girl Scouts Orange Blossom Service Unit found itself without a place to meet for our monthly adult volunteer meetings. We reached out to Keiser University who promptly offered us the use of a room at their Fort Lauderdale Campus. It is with immense gratitude we offer our appreciation, as it is through these leadership meetings that Girl Scouts is able to reach out to our Troop Leaders to disseminate information to the girls in our area. Keiser University stands out by reaching beyond just the education of their students in supporting the community.

Best regards,

*Nicole McLaughlin*
