Re: Member of Keiser University's Advisory Board

To Whom It May Concern:

I am a member of the Keiser University Advisory Board because I believe it is important for community leaders to provide feedback on the skills needed in today's workforce. This feedback helps influence the courses and curricula made available to students. Keiser University uses these insights to help prepare its students to become graduates that are desirable and qualified job candidates.

As demand for skilled, technical applicants grows, it is essential for educational institutions to be aware of current and future industry trends in order to turn that knowledge into programs that offer relevant real-world applications for their students.

It has been my pleasure to serve on the Keiser Advisory Board for the past two years. I look forward to the discussions we have celebrating the successes of each graduating class and how we can further develop Keiser's technical programs to continue preparing job candidates that are capable and ready to contribute to our community.

Sincerely,

Kala Cadwell  
Director, Compliance Courseware Program
