To Whom It May Concern;

I have proudly served as a member of the Medical Assisting Advisory Board at Keiser University since 2019. During this time, I have witnessed the program grow into one of the strongest Medical Assisting Universities in the area. I have been fortunate to provide externship opportunities to these candidates and their level of knowledge and preparedness continues to impress me. These candidates are given the tools they need to succeed and as a result, confidence radiates from them while in the clinic environment.

The faculty is exceedingly invested in their student's success on both personal and professional levels and it is apparent in their behavior and attitudes. There is no doubt that the heavy presence and involvement of Program Director, Nancy Peterhansen, contributes to the success of the program and overall student satisfaction. I cannot tell you how often the students "rave" about Ms. Nancy.

As a Practice Manager, it is refreshing to have enthusiastic students willing to learn and grow while utilizing their skills caring for patients in our community. The passion these Medical Assistants have is truly a reflection of such an amazing organization.

Respectfully,

**Marie Belle | Practice Manager**
