

To whom it may concern, my name is LaSonya L. Smith, and I am a member of the Keiser University Advisory Board. I have been a member since March of 2018. I am an active participant who helps make decisions that benefit future Keiser University Students who want to pursue various careers and serve as a gateway in the community for those who want to receive a quality education.

Keiser is important because one can make a choice to attend one of our finest campus locations or for more flexibility one can choose to pursue a degree online from the privacy of their own homes. It doesn't matter the route you choose to take, but just know Keiser is one of those Universities that gives you the opportunity to strive toward professionalism and meet your everyday goals while you continue to maintain your status in society.

What I like about the University is that you don't have to give up your lifestyle, in order too, succeed. You only must devote your time and make every effort to attend classes to receive the instructional guidance that many of our professional staff have planned for you. There are various resources that help you along the way. For example, you will write papers with the help of the staff in the writing center who critique your finished product and you can't fail with the feedback they provide. Because it's all designed to benefit your capabilities and provide room for improvement if necessary. I spent a lot of time writing papers that were of excellent quality because I learned that criticism works on your behalf and makes you a better communicator through writing.

I currently work in the Tax Industry, and one could imagine the level of knowledge you need to prepare taxes. The courses offered through Keiser University does provide you with a wealth of knowledge if you want to pursue a business career in taxes. You will receive up-to date information on tax law changes and how to thrive and survive in the business world. The research content in each course helps you to strengthen your knowledge through appropriate real world, examples that are designed for business students. You are likely to become hired and you will be able to showcase your professionalism, organizational skills, time management in a professional and productive job setting. The title you earn is well worth it. Because anyone who chooses Keiser University have chosen the BEST. Because as I stated before, Rest Assure you are in Good Hands Every Step of the Way when you go through a Keiser University Learning Experience. That is an Impressive Statement Because Keiser University is Impressive. Thank You Keiser University for helping me succeed.
