RE: Keiser University

To Whom it May Concern:

On behalf of the Mayor and members of City Council, it is my pleasure to offer this letter of support for Keiser University. When the City learned that the Keiser University was not renewing its existing lease in one of our commercial buildings, staff quickly made contact with their representatives to work with them on securing a location for their new campus. The impact that Keiser University has had on our community is tremendous. The larger campus allows for more students to visit our many restaurants and shops therefore helping our business community to thrive. Keiser University also provide local area residents with workforce training to compete in the job market. The New Port Richey campus of Keiser University is first rate and will serve our residents well for many years to come.

Best Regards,

Debbie L. Manns
