To Whom It May Concern,

Keiser University's commitment to our community and the opportunities they provide are essential to the success of creating a talented workforce for St. Lucie County.

Pace Center For Girls has a strong partnership with Keiser University and appreciate their dedication to our center and our girls. Inherent in our mission is to provide quality education for the students on the Treasure Coast and with partnering with Keiser University we can educate our students to experiences for their future journey.

Pace Center for Girls Treasure Coast currently serves St. Lucie County and was founded in 1998 in Ft Pierce, Florida. Pace Treasure Coast is one of 21 centers across the state of Florida and serves a capacity of 56 girls. Since 1998, Pace Treasure Coast has served over 1,000 girls by providing Academic, Social Services and Transition Services in a year-round day treatment program.

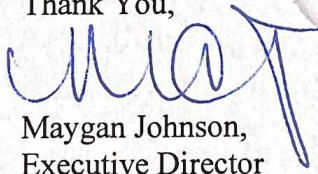

We strive to provide a holistic treatment program that focuses on the strengths of our girls, each girl's unique potential, and connecting her back to her community so that she can thrive after leaving our program. Very quickly after coming to Pace Treasure Coast our girls begin to blossom, and brighten, and feel safe to grow, and mature, to become a positive, productive member of her family and community.

Pace Center for Girls is thankful for the support and partnership of Keiser University. We look forward to more future opportunities.

PROUDLY SUPPORTED BY:

Thank You,

Maygan Johnson,  
Executive Director
