To Whom It May Concern,

I am a member of the Keiser University Advisory Board of Directors because I feel that my many years of law enforcement experience can be beneficial in the design and function of the law enforcement curriculum at Keiser.

Keiser University is important to our organization and community for the development of future law enforcement officers and or professional staff. The community can only benefit from more educated and professional members that are moving in a positive direction towards successful careers.

The Keiser University's law enforcement staff reached out my agency to have an introductory meeting and tour of the facility. During the meeting information was provided in regard to the University's mission, vision, and opportunities available to our agency for training and facility access. It is clear that the staff desires to foster strong partnerships with the area law enforcement agencies. By requesting our inclusion as advisory board members and obtaining our input to better reflect today's law enforcement challenges and seeking what skills the ideal candidate should possess, will better prepare their students for a future in the law enforcement profession.

Keiser University is on the right track, and I look forward to working with them in the future.

Chief C. Robinson  
Port Richey Police Department
