

To Whom it May Concern,

Keiser University is important to our community and has a definite, positive impact on many different people, businesses and organizations. The Rotary Leadership Institute (RLI), Sunshine Division, is an international nonprofit organization that supports Rotary.

RLI provides training to Rotarians in our community. These Rotarians come from many different industries and businesses located within the community and throughout the state of Florida.

By partnering with Keiser University, we have been able to conduct these trainings at locations that are conveniently located in the community and easily accessible for all to attend. This collaborative partnership with Keiser University also has allowed us to conduct quality training in an ideal facility.

Keiser University is definitely very important to our community and to RLI.

Sincerely,

Lee Phares, RLI Director
Rotary District 6990
Broward, Miami-Dade, Monroe Counties
Grand Bahama Island
