

March 2022

To Whom It May Concern,

The vital role that Keiser University plays in our community exceeds even the excellent results regularly achieved through its primary mission as a nonprofit university committed to providing a quality education for its students. Keiser University embraces its responsibility as corporate citizen, generously contributing support to address the essential needs of our community.

For more than 45 years, the Visiting Nurse Association of Florida has served this area as well as nearly 20 other counties. We employ more than 1,000 people and have served tens of thousands of patients. Interestingly, Keiser University has left a similarly expansive legacy of impact in education over almost the same span of time.

Keiser University offers a College of Nursing, which has helped prepare some of the nurses that we employ today. We find graduates of Keiser University to be excellent professionals in their field.

The Visiting Nurse Foundation is thankful for the support Keiser University has dedicated to our efforts providing free lifesaving exams and treatments to local people in need. Its community partnership is integral to our success in serving the indigent, uninsured and underinsured. Further, its creative approach to collaboration speaks to the character of its leadership and the community-mindedness of the organization.

Keiser University is a valuable entity in our community and we look forward to more opportunities to work together in the future.

Thank you,

Jennifer Crow
CEO
