

KEISER UNIVERSITY
DIAGNOSTIC MEDICAL SONOGRAPHY PROGRAM

REQUIRED TECHNICAL STANDARDS FORM

Students must be physically capable of successfully performing the following standards related to the occupation in a safe, accurate, and expeditious manner. Students must read the following standards carefully, assess their physical capabilities, and determine if they have any physical limitations that may restrict or interfere with their satisfactory performance of any of the standards listed below:

- Travel the required distance to clinical sites (within 200 miles driving distance from the campus) and still be able to perform the required tasks at the clinical sites.
- Lift, move, position and transport patients (from bed to wheelchair/stretchers or from wheelchair/stretchers or standing to examining table) and equipment without causing undue pain or discomfort to patient or one's self.
- Push, pull, bend and stoop routinely.
- Lift more than 50 pounds.
- Have full use of both hands, wrists and shoulders.
- Work standing 80 - 100% of the time.
- Cognitive ability to recognize threats and stresses, deal with them appropriately and continue safe and effective practices during high stress periods.
- Read an order for an ultrasound examination and follow directions to accurately perform the study.
- Communicate clearly the explanation of a procedure and give effective instructions to patient and/or family members.
- Obtain medical histories of patients and communicate this information to other health care providers.
- Be able to clearly distinguish colors within a sonogram.
- Be able to hear differences in sound produced by Doppler ultrasound.
