

KEISER UNIVERSITY AS, OTA PROGRAM OUTCOMES

The Accreditation Council of Occupational Therapy Education (ACOTE) independently accredits all OTA programs. In order to sit for the national boards (NBCOT) a candidate must evidence graduation from an accredited program. *From 2016 to 2017, all campuses offering AS, OTA transitioned into individual accreditation through ACOTE.*

Number Admitted: The OTA program offers admission cycles that vary by campus, every calendar year that may include January, May, and/or September. Once all general education pre-requisites are completed, the program requires an additional 16-months of the program major courses for completion. *The maximum number of students admitted per campus annually is seventy-two. These students then have the opportunity to become graduates in the following calendar year. The below table tracks graduates for the most-recent reporting years.*

Number of Program Graduates and Graduation rate:

The OTA program graduate cycles vary by campus that may include April, August, and/or December. This number includes those admitted who may have failed a course yet return to complete and graduate within 150% of the required time. For the most recent year, the graduate data remains pending total results. Results currently displayed as a projection of the current year listed. The OTA program has a program evaluation benchmark of $\geq 70\%$ annual graduation rate.
