	90%			92%			<i>pending</i>		

Outcomes Table Benchmarks and Definitions

Benchmarks:

1. **Graduation Rates** are at least 60%, averaged over two years. The two-year Graduation Rate for each cohort must be at least 60%.
2. **Ultimate Licensure Pass Rates** are at least 85%, averaged over two years.
3. **Employment Rates** are at least 90%, averaged over two years. The two-year Employment Rate for each cohort must be at least 90%.

Definitions:

Graduation Rate: The percentage of students who matriculated in the first technical course in the program after the add/drop period and who complete the program within 100%-150% of the program length. Students who did not complete the program due to reasons other than academic or clinical deficits are not included in the calculation. Example: 24 students start the program together and are projected to graduate within 100%-150% of the program length, but only 20 students graduate, with 2 students failing a course, and 2 others withdrawing for personal reasons. The Graduation Rate for this cohort would be determined by $20 \div (24-2) = 91\%$. (Reference: CAPTE PTA Annual Accreditation Report Instructions G1)

First-Time Licensure Exam Pass Rate: The percentage of graduates who take and successfully pass the National Physical Therapy Examination (NPTE) on the first attempt. Example: 22 graduates sit for the exam, 21 students pass the exam on the first attempt. The First-Time Pass Rate for this cohort would be determined by $21 \div 22 = 95\%$. (Reference: CAPTE PTA Standards 1C2)

Ultimate Licensure Exam Pass Rate: The percentage of graduates who take and successfully pass the National Physical Therapy Examination (NPTE) regardless of the number attempts. Example: 22 graduates sit for the exam, 21 students pass the exam on the first attempt and 1 student passes on the second attempt. The Ultimate Pass Rate for this cohort would be determined by $22 \div 22 = 100\%$. (Reference: CAPTE PTA Standards 1C2)

Employment Rate: The percentage of graduates who sought employment that were employed (full-time or part-time) as a physical therapist assistant within 1 year following graduation. Example: 24 students graduate, 23 sought employment but only 22 found full or part-time jobs. The Employment Rate for this cohort would be determined by $22 \div 23 = 96\%$. (Reference: CAPTE PTA Standards 1C3)

2-Year Average: The 2-year average for graduation rate and employment rate represents cross cohort calculations for the current and previous year based on Winter, Summer, or Fall cohort. (Reference: CAPTE PTA Annual Accreditation Report Instructions G1). The Ultimate Licensure Pass Rate 2-Year Average is determined by using the following formula:

$$\frac{(A * X) + (B * Y)}{X + Y}$$

A = ultimate pass rate of program for graduation year 2022 X = number of students in graduation year 2022 who took the NPTE
 B = ultimate pass rate of program for graduation year 2023 Y = number of students in graduation year 2023 who took the NPTE

Defining Graduating Cohorts:

COHORTS	Start Date Major	Graduation Date	Example: 2022
Winter Cohort	May previous year	April current year	Start May 2021, Graduate April 2022
Summer Cohort	August previous year	August current year	Start August 2021, Graduate August 2022
Fall Cohort	January current year	December current year	Start January 2022, Graduate December 2022
