Program Description

The Associate of Science in Artificial Intelligence program provides students with the foundational theories and practical applications of artificial intelligence, with a focus on simulating thinking, pattern recognition, decision-making, and automation using software-based systems. AI technologies such as machine learning, neural networks, and data-driven decision systems increasingly underpin modern applications, from chatbots and recommendation engines to autonomous systems like drones and smart devices. The program is designed to build skills in these core areas, supported by instruction in widely used programming languages (e.g., Python, Java) and platforms relevant to AI development.

Program Objectives

The following objectives are designed to meet Keiser University's mission and goals:

- Build a foundational understanding of artificial intelligence, including key concepts in machine learning, decision systems, and data processing.
- Develop programming and computational thinking skills through hands-on experience with languages such as Python and Java.
- Introduce core supporting technologies, including networking, cybersecurity, and web development, essential for modern AI applications.
- Cultivate analytical, problem-solving, and ethical reasoning abilities in the context of AI development and deployment.
- Prepare students for entry-level positions in AI-related fields or for a seamless transition into a bachelor's degree in artificial intelligence or a related discipline.

Program Outline

To receive an Associate of Science degree in Artificial Intelligence, students must complete 60 credit hours as described below. The length of this program is approximately 20 months (this will vary if a student transfers in credits).

AS in Artificial Intelligence Major Courses (36.0 credit hours)

COP1035C	Python Programming	4.0 credit hours
CTS1305C	Essentials of Networking	3.0 credit hours
COP1411C	Data Structures & Algorithms	4.0 credit hours
COP1800C	Java Programming I	4.0 credit hours
COT2104C	Discrete Mathematics and Probability	4.0 credit hours
CTS2350C	Principles of Information Security	3.0 credit hours
COP2610C	Concepts of AI Programming	4.0 credit hours
CAP2612C	Intro to Machine Learning	4.0 credit hours
CAP2620C	Artificial Intelligence I	3.0 credit hours
COP2830C	Web Development I	3.0 credit hours

General Education Courses (24.0 credit hours)

Credit hours in parentheses indicate the required number of credit hours in each discipline.

Behavioral/Social Science (3.0 credits)

PSY1012	Introduction to Psychology	3.0 credit hours

POS1041	Political Science	3.0 credit hours
SYG1000	Sociology	3.0 credit hours

Communications (3.0 credit hours)

SPC1017	Speech	3.0 credit hours

English (3.0 credit hours)

ENC1101	English Composition I	3.0 credit hours
ENC2101	English Composition II	3.0 credit hours

Humanities/Fine Arts (3.0 credits)

AML1000	American Literature	3.0 credit hours
ENL1000	English Literature	3.0 credit hours

Mathematics (3.0 credits)

MAT1033	Intermediate Algebra	3.0 credit hours
MAC2105	College Algebra	3.0 credit hours

Natural Science (6.0 credits)

BSC1005	General Biology	3.0 credit hours
BSC1006	Advanced Biology	3.0 credit hours
CHM2045	General Chemistry	3.0 credit hours
CHM2046	Advanced Chemistry	3.0 credit hours
PHY2001	General Physics I	3.0 credit hours
PHY2002	General Physics II	3.0 credit hours

Pg. 371, Course Descriptions, LIT1481, SLS1501

Add the following new course descriptions in the appropriate alphabetical place in the listing:
LIT1481 (3.0 credit hours)
Popular Culture in Literature
This course examines popular culture as a dynamic and significant feature of modern society while exploring the role of media and popular culture in everyday life through the application of literary concepts and practices. Subtopics include historical background, cultural trends, societal impact, social control, cultural diffusion, collective consumption, and literary genre using textual, visual, and auditory materials. Students are challenged to investigate, explore, and develop their understanding of the world through the various literary lenses applied to popular culture.

SLS1501 (1.0 credit hours)
College Success Skills
This course serves as an introduction to new students at the Keiser University International Centers. It assists students in coping with the challenges of college life, clarifying their goals, and learning strategies and skills that will help them succeed in college life. Topics covered include: test-taking, note-taking, listening skills, memory techniques, academic regulations, ideas for wellness, understanding of diversity and career issues that face college students. (Note: Offered only at Keiser University International Centers. Not automatically transferrable.)

Pg. 670, Keiser University Flagship Campus, Undeclared Majors

*After **Intensive English Program**, before **Learning Common**s, add:*
Undeclared Majors
Keiser University strongly encourages students to declare a major prior to beginning attendance. Students who are undecided at the time of registration may choose to enroll as Undeclared. Students

enrolled as Undeclared must declare a major by the end of their first semester. Under extenuating circumstances, students may be allowed to remain as Undeclared for an additional semester.
