*Revise the course number for **OTH1203** to **OTH1203C**.*

*Add the following course descriptions in the appropriate place in the alphabetical listing:*

OTH2520C (4.0 credit hours)

**Pediatric Occupational Therapy**

Presents specific issues in the practice of pediatric occupational therapy. Under the supervision of a licensed occupational therapist, students learn to assess specific needs regarding performance of self-care and play/leisure activities, with emphasis on a school environment. In order to achieve treatment goals in this specialty area, common pediatric disorders, their etiology, prognoses, and appropriate occupational therapy treatment/interventions are explored, stressing the incorporation of activity analysis, gradation, and use of assistive technologies and adaptation of task/environment within a child's family setting. Prerequisite: OTH2420
