This is a supervised practice rotation schedule example – dates must correspond to the correct rotation time/year. Rotation schedules are arranged based on preceptor availability. Some preceptors may request a longer rotation i.e. FS 8 weeks instead of 6 weeks, more experience is always good. Rotation hours may exceed minimum of 1320 hours.

- **Developing a Dietetic Internship Rotation Schedule Power Point**  
(<https://www.keiseruniversity.edu/welcome/>) is available to assist in developing the internship supervised practice rotation schedule.
- **Find a Preceptor**

To assist students, locate potential preceptor for developing a supervised practice rotation schedule, ACEND has provided students a site to locate preceptors in different geographical areas. The preceptors listed on the website are willing to precept students for the supervised practice rotations. Find a Preceptor (<https://www.eatrightpro.org/find-apreceptor/?state>ShowSearch>) is the ACEND site available to students.
