- This is an example- dates must correspond to the correct rotation time. Rotation schedule are arranged based on preceptor availability. Some preceptors may request a longer rotation i.e. FS 5 weeks instead of 4 weeks, more experience is always good. Rotation hours may exceed 1320 hours.

To assist students locate potential preceptor for developing a supervised rotation schedule, ACENO has provided students a site to locate preceptors in different geographical areas. The preceptors listed on the website are willing to precept students for the supervised practice rotations. Find a Preceptor (<https://www.eatrightpro.org/find-a-preceptor/?state=ShowSearch>) is the ACEND site available to students.

MNT Acute care – LTC

640 hours of supervised practice

MNT acute care – LTC must be precepted by a Registered Dietitian (RD) or Registered Dietitian Nutritionist (RDN). Possible sites for this rotation are hospitals, long-term care, rehabilitation/skilled nursing facilities, outpatient clinics (cancer center, diabetes center, and dialysis). Interns must complete at least 1320 hours of supervised practice or more in acute care facilities (hospitals). It is recommended to complete 2-4 weeks of LTC rotation.

Community

520 hours of supervised practice

Possible sites for this rotation are WIC, Head Start, county extension services, food banks, meals-on-wheels, adult day care centers, public health departments and retail.

Food Service Systems/Dietetic Management

Possible site for this rotation are food service departments in hospitals, long-term care, rehabilitation/skilled nursing facilities, and school districts.
